

## L-GD Series

### Gasketed Access Doors

**Gasketed Access Doors** are ideally suited for new installations or for remodeling, in masonry, tile, wood or other wall and ceiling surfaces. Access door is fully gasketed and is commonly used in clean rooms, laboratories, operating rooms, etc.

**Door and Frame** are fabricated from 18 gage, galvanized steel with a white prime coat finish. Door and frame are designed to form a tight seal reducing air infiltration by placing gaskets on all three sides of the door stop and gasketing the space between the door and frame.

**Gasket** material consists of 1/8" x 3/8" oil-resistant, fire-retardant blended Buna-N Foam.

**Frame** is four piece construction, 1" wide and provides perfect concealment of the rough wall opening. Wall frame is provided with 1/4" mounting holes for fastening within the furred spaces allowing faster installation and fixing maximum clearance.

**Concealed Pivoting Rod Hinge** prevents distortion and closes door squarely.

**Latch** is screwdriver operated.

**Finish** is a white prime coat.

### Guide Specification

Provide Larsen's<sup>®</sup> L-GD Series, Gasketed Access Doors. Access door and frame shall be fabricated from 18 gage, galvanized steel with a white prime coat finish. The door shall have rounded safety corners and a concealed pivoting rod hinge. Frame shall be one piece construction with no mitres or welds on the face. Door and frame shall have a tight seal reducing air infiltration by placing gaskets on all three sides of the door stop and gasketing the space between the door and frame. Latch shall be screwdriver operated.
